Herald Steam Printing House.
The Herald Steam Printing House is not surpassed by any job printing office on the Pacific Coast, outside of San Francisco, in facilities for doing job work. Low prices, good work and execution may be relied upon at this office.

Special Notice.
Heretofore notices of companies, societies, churches, etc., will be inserted in the Herald, as well as advertisements. We reserve the right of worship a gratuitous directory, which will appear every Sunday morning.

The Herald office is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to number 156.

The Herald is the official paper of the city of Los Angeles. The city delinquent tax lists and all other municipal notices appear only in its columns.

Mr. R. N. Howe is the Santa Ana agent of the Herald.

No Herald To-Morrow.
The admit of the employees of the Herald observing New Year's prop-
erly no paper will be issued from this office to-morrow.

In the New Year's notes which are natural to a section it gives us great pleasure to congratulate our adjoining counties on the splendid opening which has before them. First of all we extend our felicitations to San Diego, where the editor of the Herald spent his first years in California. We remember well the high hopes we had of the future of that exquisite city of bay and climate. We were there in the heyday of its hope, and when in its ample bink, Tom Scott spoke of the pretty things he would do for it of building his Texas-Pacific Railway on the direct route, etc., etc. Graction and winning Tom Scott, surrounded by John Sherman, Governor Throckmorton and others, drew the long bow to the devoted San Diegan. He promised more than he intended to do, as he had previously done to the people of Shreveport and other regions which expected to date their instant fortunes from his arrival in their midst. From the time when Jefferson Davis, as President Pierce's Secretary of War, in a message to Congress, went upon San Diego as the destined terminus of the great Southern Pacific Railway, our beautiful and interesting neighbor has been palpitating upon railway uncertainties. Now she has seen that hope deferred which made the heart sick transformed into fruition, and we wish her the utmost possible realization of her long cherished and legitimate aspirations. As to our equally immediate neighbor, San Bernardino, we are likewise cordial in our good wishes. We believe that this most exquisite of all the valleys of California is the center of the finest mineral possibilities of the coast, and her agricultural outcome cannot fail to be superb. In Colton she has what bids fair to be the Indianapolis of Southern California. Our neighbors Ventura and Kern counties are also looming up in a remarkable way. Population is thronging into their fertile valleys in a manner which astonishes the oldest settler. Real estate values are enhancing day by day; and production, manifold and remunerative, is increasing at a rate calculated to dazzle the imaginations of their best well-wishers. A most important part of the California scene is the large and curious looking iron engine which looks like a cannon for firing dynamite shells, which is not caused at all, but is the result of the detection of adulteration in food and drink, declared in his report to the French Academy of Sciences that very little genuine brandy is now made anywhere in France. The greater part of the alcohol now produced in France is grain based, molasses and potatoes, and grain spirit is never sufficiently rectified. Other forms of alcohol are charged with dangerous acids and oils. The "Times" says, "We have found out that brandy imported into this country, its price should be supplied by pure home product if it can be obtained."

California in New Orleans.
The New York "Picayune" says: No man looks back with the exactness and interest which is being made by the State of California under the direction of Commissioner C. B. Burritt, without being struck with the enormous development which the wine and fruits of that region, while the entire subject of the mineral wealth of the quondam golden State is left entirely out of view. The wine and fruit which he exhibits in missions from California and nothing that reminds one of the "days of old, the days of gold and the days of '49," of which the old California tales tell us, and they talk family.

There is, however, a large, long and curious looking iron engine which looks like a cannon for firing dynamite shells, which is not caused at all, but is the result of the detection of adulteration in food and drink, declared in his report to the French Academy of Sciences that very little genuine brandy is now made anywhere in France. The greater part of the alcohol now produced in France is grain based, molasses and potatoes, and grain spirit is never sufficiently rectified. Other forms of alcohol are charged with dangerous acids and oils. The "Times" says, "We have found out that brandy imported into this country, its price should be supplied by pure home product if it can be obtained."

Reduced Passenger Rates.

SAN FRANCISCO, December 31.—The reduced passenger rates East go into effect to-morrow. The principal reductions are on limited tickets, the reductions on unlimited tickets being small. They range from \$8 to \$13 on first-class cars. Rates between the Missouri river and points in California have been fixed as follows: From the Missouri river, the Colorado, San Joaquin, Sacramento, and Mojave, via the southern routes, first-class, unlimited, \$84; via the Oregon route, unlimited, \$90; to San Francisco, San Joaquin, Sacramento, and Northern Pacific, \$22; Northern Pacific, common, \$22; Northern Pacific, preferred, \$16; Oregon, \$16; Northern Pacific, \$16; York Central, \$16; Oregon Railway and Navigation, \$16; Transcontinental, \$32; Oregon Improvement, \$27; Pacific Mail Steamship, \$66; Panama, Railway, 98; Texas and Pacific, \$16; Union Pacific, \$16; United States Express, \$2; Wells, Fargo & Co.'s Express, 119; Western Union Telegraph, 72.

New York Stock Market.

NEW YORK, December 31.—Government bonds, dull and steady. Railway bonds were very active and generally higher. Stocks were dull and featureless. Prices did not even begin to move in either direction. The Secretary of State has issued a circular asking the Legislature for an extraordinary amendment to the act of the 1st of June, 1862, authorizing the Inter-Departmental Department to make no dispatch from him suggesting the need for troops to protect the Indians on San Carlos reservation, and no action had been taken by the Government to concentrate troops in that vicinity for the purpose indicated. Muldrow adds: "The purpose of the Government is to have and protect the Indians in Arizona, and the rights of peaceful Indians are protected, and in accordance with the treaty of 1859, the Indians are to be allowed to remain in their lands and to cultivate them, and to maintain peace within the Territory."

SAN FRANCISCO, December 31.—Bast & Balch, 90; Chollar, 55c; Crocker, 35c; Gould & Curry, 55c; Hale & Norcross, 20c; Mexican, 40c; Navajo, 30c; Ophir, 55c; Peacock, 55c; Potos, 100c; Savage, 90c; Sierra Nevada, 50c; Union Consolidated, 30c; Yellow Jacket, 30c.

Chicago.

CHICAGO, December 31.—Wheat is steady and higher, at \$85c cash and January, \$88c February, \$104c May.

Corn—firm, steady, at \$60c cash, year and barley—62c spot.

There was no session this afternoon. The board adjourned until Saturday.

LIVERPOOL, December 31.—Wheat is in poor demand but steady; spot, 48s; January, 50s; same rates hold good for travel. Maize, steady; and they will go late to-morrow.

Useful Brandies.

NEW YORK, December 31.—The New York Academy of Sciences says: It begins to look like the era of the greatest laboratory of the world, the Museum of Natural History, and the military are still unable to intercept them. The government must chose between the safety of the Indians and the Indians must be surrendered to the Indians and the progress these people have made in civilization and material development is the same side, or the numerous nations must be put before the power of working mischief. The restraints are utterly inadequate. They can not be stopped by force, and the military are indulging in a saturnalia of murder whenever inclination impels them. Such conditions ought not to exist, and they can be stopped by an element of humanity or seeming indifference to an evil that has become intolerable.

The Indian Problem.

SAN FRANCISCO, December 31.—On the Apache problem the Examiner editorial says: It begins to look like the proper method of dealing with the Apache Indians had become a distinct problem in itself. Appeals have repeatedly been made to the government to solve it, but it is no nearer a solution than it was ten years ago. The military have been baffled in their attempts to coerce, just as the Interior Department has been unable to placate the savages. The Apache Indians are the most warlike and most difficult to subdue, and the military are still unable to intercept them. The government must chose between the safety of the Indians and the Indians must be surrendered to the Indians and the progress these people have made in civilization and material development is the same side, or the numerous nations must be put before the power of working mischief. The restraints are utterly inadequate. They can not be stopped by force, and the military are indulging in a saturnalia of murder whenever inclination impels them. Such conditions ought not to exist, and they can be stopped by an element of humanity or seeming indifference to an evil that has become intolerable.

The Sharon Case.

SAN FRANCISCO, December 31.—The Superior Court to-day filed an opinion in the case of Sharon vs. Hill, respecting the appeal taken by the late ex-Senator Sharon that the payment of alimony to Mrs. Hill-Sharon be withheld. The court finds no reason for suspending the payments, and the motion to dismiss, thereby legalizing the appeal of Sharon. The effect of this decision is that the Supreme Court will review Justice Woodward's decision, and that no payment of alimony or counsel fees can be made until the case is finally determined.

What a Wife Said.

It came from C. F. Heinenau's store: "I am not a wife, I am a mother. I have no right to be the Republican party, to keep silence in reference to any skullduggery, past or proposed, and any official who thinks of assisting in such skullduggery will be held responsible." The women of Los Angeles, and all taxpayers of Los Angeles, have some rights in this matter, and are in no humor to be fleeced out of a thousand or fifteen hundred dollars in this item.

The record of the real estate trans-

actions of the past year in Los Angeles city and county exceeds in amount any that has ever been chronicled in any county of this state. In great part, it represents a movement of people from the East, and from northern and central California, who desire to cast in their lot with us. These are but the *avant couleurs* of those who are on the way to join us.

The Illustrated Annual Herald

has already received guarantees of patronage from our business men which will enable us to make it a work unique of its kind. We do not expect to get it out until the close of the month. Thoroughly artistic productions require time.

Killed by a Burglar.
NEWCASTLE, Pa., December 31.—Jas. Kincaid, a prominent citizen of Mahoning, was fatally injured by an unknown burglar at an early hour this morning. The burglar had stolen Kincaid's money, and got a watch from his clothes, and was leaving the house when Kincaid was awakened. He followed the burglar down stairs, and shot him in the back, hitting the ball passing through his body and coming out at the back. The burglar then ran out of the house. Kincaid is still living, but the effects of his recovery are not yet known.

Burglary on House.
LONDON, December 31.—Michael Davitt, in an interview to-day, said: "If Home Rule is granted to Ireland it is difficult for me to see how an Irish member can continue to sit in Parliament at Westminster, unless the colonies are similarly entitled to self-government. The appointment of a prime minister of the royal family as Viceroy of Ireland would be a mistake, as Ireland requires a statesman of tact and knowledge to administer the government, not a royal show."

A Reduction in Passenger Rates.

An Argument in Favor of California Brandy.

[Special to the Herald by the Associated Press.]

WASHINGTON, December 31.—Governor Zulick, of Arizona, has telegraphed to the Secretary of the Interior calling attention to the erroneous impressions that the purpose for which troops have been recently ordered from San Francisco is merely to protect Indians in the four quarters of the world. In India, in Afghanistan, Persia, and Italy, the Herald circulates. Its subscription list, both daily and weekly, increases day by day. It has no vagaries. It has no pet cranky projects. Heres and there a fanatic may not like it, but we take great pride in the fact that, this blessed New Year's Day, the conservative and considerate Herald is the representative of this section. It has more circulation than all the daily journals of the three Southern counties put together, and its modesty alone prevents it from saying that it deserves the signal and phenomenal favor of the masses. We should accentuate this aspect of the matter if we had not in our mind's eye those old adages that "good wine needs no bush" and that "self praise is no praise."

TROOPS FOR ARIZONA IN TRANSIT.

List of Companies and Names of Officers.

At 9 o'clock yesterday forenoon a special train of 23 cars arrived from San Francisco, bringing two companies of the Second Cavalry and three companies of the Eighth Infantry from San Francisco under the command of Major D. S. Gordon, destined for Fort Bowie, Arizona. The troops 200 in number, occupied seven passenger coaches, and the officers a Pullman sleeper, while fifteen box cars contained 110 cavalry horses, 30 days' rations, 150 boxes of rounds of ammunition, tents, etc.

The troops are familiar with the Territories of Arizona and New Mexico, having served four years in that country under General Crook and General Kautz.

They were removed from Arizona to take part in the Bancker campaign. The train moved out from this city after a pleasant stoppage of three hours to lay in supplies and do a little commercial work.

The train consisted of Major D. S. Gordon, Lieutenant Rutherford, Lieut. Waller and Lieut. Brett, of the Second Cavalry; Major S. W. Worth, Captain Cavalry; Major J. C. Morris, Major G. W. Sumner, Lieut. W. H. Moore, Lieut. C. P. Terrell, Lieut. W. P. Richardson, Lieut. G. W. Rutters and Assistant Surgeon.

The party left San Francisco on Tuesday evening and will make headquarters at Fort Bowie, Arizona, and await orders. While the party was en route by General Kautz was in retirement and who makes his home in Oakland, Cal., but had happened here on a visit just in time to meet Major D. S. Gordon, who had been here several times during the civil war. The General and Major Gordon went together some of their reminiscences that were interesting to listeners, and peculiarly so to the party en route to the west.

THE BRONX TRACT.

The south bound train brought Col. Bryant, in command of a battalion of infantry from Benicia numbering 60 men. The two companies were received by Capt. A. V. White and Lieut. R. H. White, regular surgeon. The destination of this command is also Fort Bowie, where it will be joined by the command from San Diego, and the command from the Bronx tract.

THE SAN DIEGO COMMAND.

The command from San Diego numbering 30 men, under Capt. Terence Dally and officers, First Lieut. H. Johnson, Second Lieut. G. Hartman, fully equipped for a vigorous campaign, will also join the command at Fort Bowie, making in all 200 men from California. The officers, however, in command of troops which experience on the border will make them particularly available for the restoration of order in the unfortunate Arizona and New Mexico.

The party met many friends and acquaintances, and rejoiced over their short stay in the City of the Angels.

THE YANKEE COMPANY.

Dysentery is the natural complaint. Almost every man or woman you meet has it, and the result is that the number of pseudo-remedies for it is as great as for "Parched Root."

They are for the most part nostrums, however, a searching eradicate of this distressing and obtrusive malady, one whose genuine merits long since raised it to a foremost place among the staple menu of American food. But the Sacha Bittertress dyspepsia with greater certainty and promptitude than any known remedy, and is a most genial refrigerant, and a true tonic in its action.

These are not empty assertions, as thousands of our countrymen and women who have experienced its effects are aware, but will call up irrepressible proofs repeatedly until before the public. The Bitters also promote a regular habit of body and give a healthful stimulus to the urinary organs.

THE GRISMER-BUTLER THEATRICAL COMPANY.

This excellent combination of artists gave Mr. Grismer's own dramatization of "Called Back" again last night in the Grand Opera House. The audience were of the same select and critical character as on the previous evening. The exceptionally strong play was given in the subdued, artistic manner which won such hearty applause on Wednesday night.

At the matines to-day the "Wages of Sin" will be presented. It was such high commendation on previous nights of the season that a good house will be assured.

For this evening "The Veteran" is understood. It has never been played in this city, but it is the San Francisco Repertory.

"The Veteran" was presented last evening before an immense audience, and met with instantaneous success. The plot is a strong one, and binds together in a simple and forcible manner interesting incidents and shows the relations of the characters.

It is perhaps a comedy, in containing more of the ludicrous than of serious, but it diffuses gravity from the scenes, and gives a sense of comedy, in which the audience is supposed to be in a constant roar of laughter.

"The Veteran" contains much that is touching, but comic parts are there to give full variety, and the funniest parts are to come.

The play was admirably mounted, and without exception the acting was good.

Tuesday evening Alexander Dumas' splendid romantic melodrama "Monte Cristo" is understood.

The Grismer's have played this before to a large audience, and the present production is to repeat the success of the former.

It is necessary to remind the people of the exceptionally strong and artistic manner in which it will be produced.

For the grand Sunday matinee "Called Back" is understood.

A CAPTAIN'S FORTUNATE DISCOVERY.

Capt. Collier, of the Weymouth, playing in small Atlantic City, and New York, had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. He got only instant relief, but, as they are on the transsoceanic in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now a standard remedy in the Collier household and on board the schooner. Free trial bottles of this standard remedy at C. F. Heinze's drug store.

MAIL SUPERINTENDENT APPOINTED.

A private telegram received in this city on Wednesday states that Mr. Jas. L. Wilder, present incumbent, has been reappointed Superintendent of the Eighth Division, Railway Mail Service, which includes all the Pacific Coast. Mr. Wilder has been Superintendent for the past two years.

THE EXCITEMENT NOT OVER.

The rash at H. Godfrey's drug store still continues on account of persons affected with consumption, and the excitement, to procure a bottle of Dr. King's New Discovery, is now entire satisfaction. It is a standard remedy. Price 50 cents. Trial size 10 cents.

Those Foot Hills.

A careful analysis of the soil of the splendid foothill land at Alpine to be offered for sale by John C. Bonham, the agent for the State, shows it to be the finest in the country for fruit and deciduous fruits, and the bunch grass which covers the sections certifies to their value for agriculture.
